SINGING IN 3D WITH SHABANG!

TOP OF THE MORNING!

We hope you enjoy this original Shabang Song.
Here are some ideas to help your song go with a swing – we call this "singing in 3D" – it helps to make a song as accessible as possible, for everyone. Shabang songs are pretty straightforward to sign in Makaton.

TOP OF THE MORNING! is a catchy greeting song to start your day or circle time. Great for Makaton signing "Good Morning". The song deliberately leaves long instrumental interludes allowing you to greet each member of the group individually and for them to reply in which ever way is appropriate to their needs.

· Each group member could take it in turns to be the "greeter".
· The up beat nature of the song means you can also use it in a movement session with everyone moving around the space and greeting one another as they pass by.
· In morning Circle Time, the song could be a precursor to "what's the weather like today? Where a child looks out of the window and reports back of the weather. (we have rain /wind/sun songs in the Shabang repertoire) before you go onto what will be happening today etc.
